REMARKS:

Frank,

Enclosed please find a revised Tree Removal Variance request for the above referenced project. The reason for revision is twofold – 1) We inadvertently excluded the removal of Tree #50 – which is shown on the approved FCP within the LOD. Tree #50 is in “poor” condition, and is not a candidate for preservation, but it was not included in the initial request. 2) Tree #56 – which was included in the initial request – was reported to be in “poor” condition. The condition for tree #50 was mistakenly input into the description for tree #56. In actuality, in accordance with our approved FSD and FCP, Tree #56 has a rating of 58 – which is “fair”. We have amended the request to reflect this, and have included an alternatives analysis for tree #56. I trust that you can accept this revised Variance Request Letter and continue to be processed for approval.

If you have any questions please do not hesitate to contact me.

Thanks Terry
